

Contents for RPA Blue Prism Training

1. **Introduction Of Blue Prism Robotic Automation**
2. **Process Studio**
 - a. Running Process
 - b. Basic Skills
 - c. Process Validation
 - d. Decision Stage
 - e. Calculation Stage
 - f. Data Items
3. **Process Flow**
 - a. Decisions
 - b. Circular Paths
 - c. Controlling Play
 - d. Set Next Stage
 - e. Breakpoints
 - f. Collection Of Loops
 - g. Layers Of Logic
 - h. Pages Of Organization
4. **Input And Output**
 - a. Input Parameters
 - b. Stepping Pages
 - c. Data Item Visibility
 - d. Data Types
 - e. Output Parameters
 - f. Startup Parameters
 - g. Control Rooms
 - h. Process Outputs
5. **Business Objects**
 - a. Object Studio
 - b. Business Objects
 - c. Action Stage
 - d. Inputs And Outputs
 - e. Process Layer
6. **Object Studio**
 - a. Creating An Object
 - b. Application Modeler
 - c. Spying Elements
 - d. Attributes
 - e. Attributes Selection
 - f. Launch
 - g. Wait
 - h. Timeout
 - i. Terminates
 - j. Write
 - k. Press
 - l. Attach And Detach
 - m. Read
 - n. Actions
 - o. Action Input And Outputs
 - p. Data Items As Inputs
7. **Overview Of Error And Case Management**
8. **Error Management**
 - a. Exceptional Handling
 - b. Recover And Resume
 - c. Throwing Exceptions
 - d. Preserving The Current Exception
 - e. Exception Bubbling
 - f. Exception Block
 - g. Exception Handling In Prism
9. **Case Management**
 - a. Queue Items
 - b. Work Queue Configurations
 - c. Defer
 - d. Attempts

- e. Pause And Resume
 - f. Filters
 - g. Reports
- 10. Additional Features**
- a. Safe Stop
 - b. Collection Actions
 - c. Choice Stage
 - d. Logging
 - e. Log Viewer
 - f. System Manager
 - g. Process / Business Object Grouping
 - h. Process And Object References
 - i. Export And Import
 - j. Release Manager – Packages And Releases
- 11. Consolidation Exercise**
- a. Order System Process
 - b. Consolidation Exercise Checklist
- d. Recognizing Text Input Parameters
- 4. Send Keys**
- 5. Image Recognition**
- a. Waiting For Images
 - b. Tracking Elements Around The Screen
- 6. Summary**

Introduction to Surface Automation

- 1. Introductions**
- 2. Regions**
 - a. Introductory Exercise
 - b. Region Editor
 - c. Execute Actions
- 3. Character Matching**
 - a. Identifying Fonts
 - b. Identifying System Fonts
 - c. Read Actions
